Colours inspired by nature
to bring serenity into your builds

Sheathing Architectural Wonders with Colours of Nature's Serenity

In the spirit of celebrating architectural ideation and creativity, COLORBOND® steel unveils the Petal Series - a new range of pastel-hue colours to radically change how designers can incite and rediscover new decorative possibilities.

Basked in a refreshing vibe, the new colours are inspired by one of nature's best wonders – the blooms of flower petals that ensemble nature's vivifying serenity through its shimmering colours.

Discover the

PETAL

Series

Available in 5 inspiring colours, the Petal Series evokes a soft yet dramatic palette which enlivens the purpose of COLORBOND® steel in shaping some of the nation's most iconic landmarks.

Colorbond®

Rose Blush

SRI : 88

A Spectacle of Beauty and Lightness

Blissful, airy and romantic hue with the fresh bloom of sensation – a soft blush has the power to brighten up even the most dense-looking architecture and transform your builds into dreamy versions of themselves as if the world is now seen through rose-tinted lenses.

Sunny Marigold

SRI : 84

Richness in Sun-kissed Gaiety

Naturally radiating joy and optimism, it comes as little surprise that muted yellow is decorating's *color du jour*. And like its namesake, this washed-out shade brings a sunny feel of a sun-bleached appeal without being overwhelming which suggests a carefree approach to architecture.

SRI : 80

Sky Brunnera

Breezy Ease and Calms
Suggestive of the boundless sky and water at dusk, the soothing hue injects comfort into architecture, transforming spaces through calm and collected tonal statements. The soft, dependable blue takes expressiveness aloft in various designs.

Sahara Iris

SRI : 65

Earthy with Refined Cosiness

Beautiful, lush, and evocative palette with wondrous tones for the serenity of nature. Sahara Iris connotes earthy vibes which offer versatility and flexibility that can truly refresh, calm and define.

Ruby Hibiscus

SRI : 42

Enticing Warm Elegance

Emblematic of heritage yet elegant contemporary, this bold shade engages the eyes with its come-hither magnetism with simple elegance. The hue emits an appeal of confidence and charisma.

Inspiration Begins from Nature's Magnificence

From the desert wildflowers to the delicate garden blooms, Petal Series from COLORBOND® steel captures 5 inspiring colours to create the ideal look and feel for your build.

SRI is calculated using ASTM E1980-01 with Medium Convection Coefficient (12) value reported. This data is approximate values only, may vary based on paint formulation and/or metallic coating thickness.

The colours shown in the colour chart have been reproduced to represent actual product colours as accurately as possible. However, we recommend you to check your chosen colour against actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones.

Colorbond®

Pastel Perfect for Various Applications

Featured Walls

Take cues from the bright and bold injections of trending colours emerging in building design. The Petal Series provides a refreshing pastel-toned palette that opens endless possibilities for various steel applications.

Interior Fittings

Ceilings

Exterior Facades

Roofing & Walling

Escape The Conventional

The muted beauty of the Petal Series calls for unconventional shades that evoke optimism and highlight our desire for adventurous freshness.

The myriad of pastel blends harmoniously with various shapes, textures, designs, or backgrounds, allowing a silky appearance no matter the application.

Benefits at a Glance

- Blends well with various shapes, textures, designs or backgrounds.
- Suitable for various steel applications such as roofing, cladding, decorative or interior.

Enhanced Thermal Comfort with Thermatech[®]

The light-hearted tone of the Petal Series accentuates one of the highest Solar Reflectance Index (SRI) amongst all other colours in the COLORBOND[®] steel range.

This translates to more reflectance of the sun's heat and therefore, lowering heat transmission into living spaces for better thermal comfort.

Benefits at a Glance

- Optimum thermal comfort thru its exceptionally high solar reflectance index (SRI).
- Lowers heat transmission into living spaces for better thermal comfort.

Self-cleaning with Clean Technology

Incorporated with Clean Technology, the Petal Series can retain its attractiveness over time as it self-cleans with natural rainfall. It works by preventing dirt from bonding to the steel surface and allows natural washing as it rains.

This helps buildings to thrive especially in the tropics and ensure lasting beauty in building facades.

Benefits at a Glance

- Self-cleaning with Clean Technology
- Minimal maintenance while ensuring lasting beauty

Inspiring , Long-Lasting Colours

The Petal Series utilises the optimum paint formulation of COLORBOND® steel which delivers colour performance with lasting stability and vibrance.

Despite the lightness of the Petal Series hues, paint performance remains uncompromised through comprehensive testing programmes, including laboratory or actual field exposure tests to deliver incredible durability against weathering.

Benefits at a Glance

- Longer-lasting colour and gloss durability
- Better delamination resistance
- Superior paint performance

More About

PETAL

Pretreatment

Corrosion resistant proprietary conversion coating.

Primer Coat

Universal corrosion inhibitive primer. Nominal dry film thickness of $5\mu\text{m}$ on each side.

Finish Coat

Custom formulated Super Polyester paint system with high performance pigments. Nominal dry film thickness $20\mu\text{m}$ on the top or weathering side.

Backing Coat

Custom formulated Shadow Grey. Nominal dry film thickness $5\mu\text{m}$.

Warranty Backed by BlueScope

Using our coated steel for your home comes with a warranty backed by BlueScope.
